BOOK REVIEWS

MARRIAGE LAWS AND DECISIONS IN THE UNITED STATES: A MANUAL, by Geoffrey May; 477 pages; 1929; Russell Sage Foundation, New York; $3.50.

This Manual consists of a compilation of the statute law, and also decisions interpreting the statutes, relating to marriage in the various jurisdictions in the United States.

In order to assist those readers who are not trained in the law, the author has briefly and lucidly summarized the common law relating to marriage, as a preface to his analysis of the statute law.

Most of the factors which determine the validity of a marriage are grouped under the heading "The Marriage License," because the State relies largely upon this method of administrative control to protect its interest in marriage as a social institution. Among other principal headings are "Solemnization," "The Marriage Record," "State Supervision," "Interstate Relations," and "Sex Offenses and Marriage."

ALBERT E. MARKS.

Designating a "CORPORATE" EXECUTOR or TRUSTEE

IN the preparation of a Will for a client, and the designation of a corporate Executor or Trustee, the conscientious attorney considers the general reputation of the proposed trustee, both as to safety, method of handling trusts, and considerate attitude toward beneficiaries.

An attorney is also entitled to know that such a trustee or executor will recognize his own just claims to carry on the necessary legal work connected with the estate.

In all these considerations, the general practice and reputation of Security-First National Bank will be found satisfactory.
